Scenografica

DESIGNED BY
CRISTINA CELESTINO

La collaborazione di Cristina Celestino con Fornace Brioni si rinnova portando in scena un nuovo capitolo progettuale: Scenografica.

La collezione si ispira al lavoro dei grandi scenografi del Barocco italiano, conosciuti per la creazione di architetture magnifiche ed effimere.

Il progetto ha come fil rouge il tema dell'illusione, che nel periodo barocco diventa protagonista dell'esperienza teatrale: finzione e arte si incontrano sul palcoscenico per creare stupore e meraviglia nel pubblico.

Cristina Celestino continues her collaboration with Fornace Brioni, creating a new chapter: Scenografica. The collection is based on the work of the great set designers of the Italian Baroque, known for their magnificent temporary works of architecture. The red thread is the theme of illusion, which in the Baroque era was the true protagonist of the theatrical experience: artifice and art meet on the stage to generate amazement and wonder in the audience.

The collection is based on the work of the great set designers of the Italian Baroque.

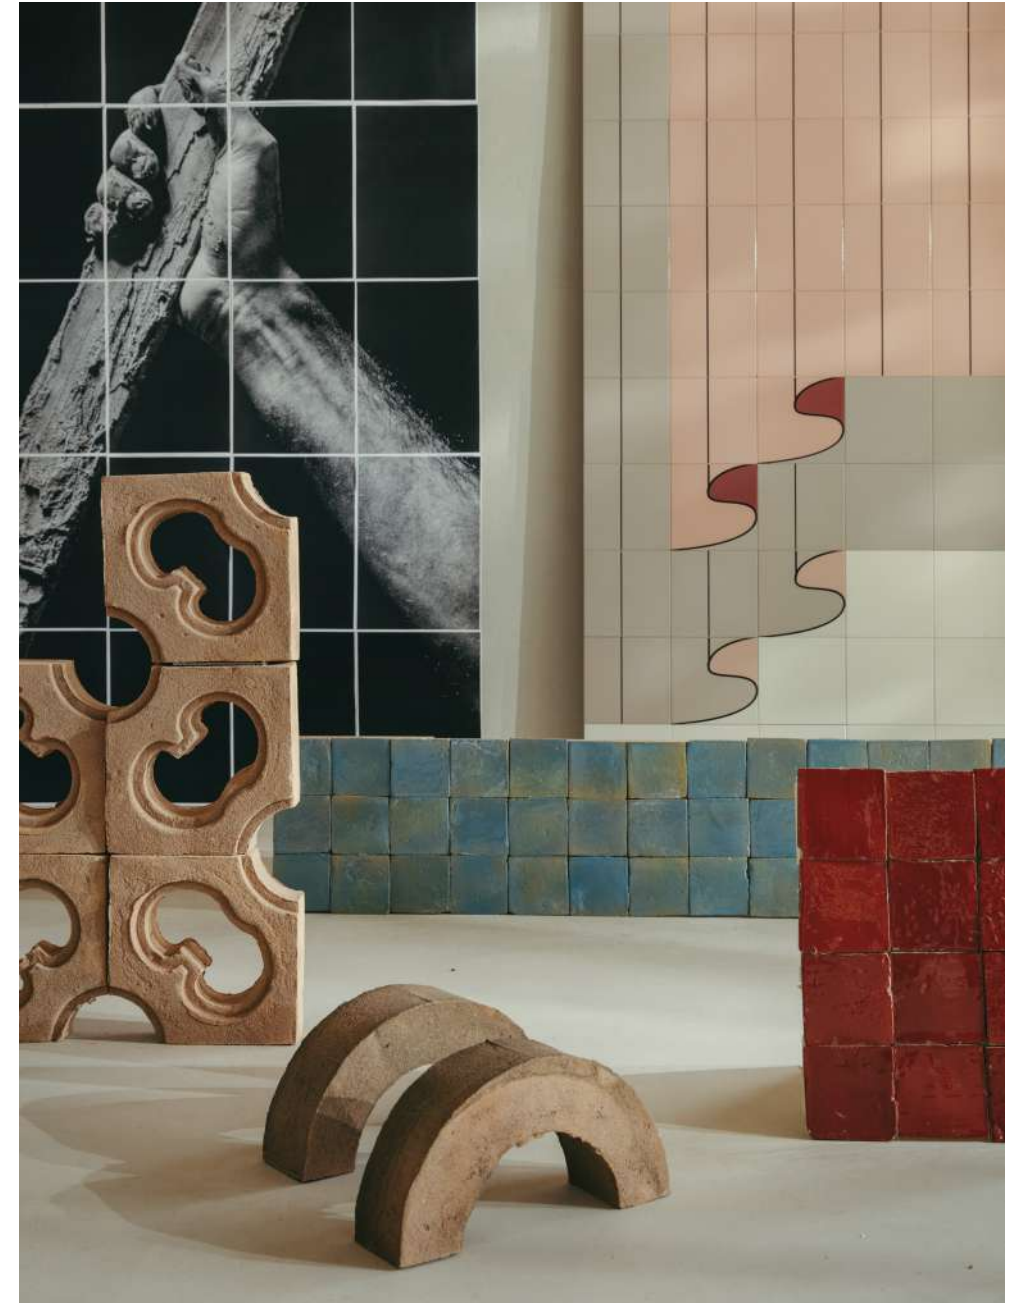

Tra i riferimenti più illustri, il lavoro della famiglia Galli da Bibbiena, che tra la metà del '600 e la fine del '700 operò nel mantovano dove si trova la storica fornace Brioni. La famiglia si distingue per la creazione di autentici capolavori, come il Teatro Scientifico a Mantova e la Chiesa di Sant'Antonio Abate a Villa Pasquali.

Among the most illustrious references, there is the work of the Galli da Bibbiena family, which from the middle of the 17th century to the end of the 18th century, worked in the Mantua area, home of the historic Fornace Brioni. This family stood out for the creation of true masterpieces, like the "Scientific Theater" in Mantua and the church of Sant'Antonio Abate at Villa Pasquali.

Prendendo spunto da queste creazioni, dai segni grafici ricorrenti, da una palette cromatica varia ed importante, la designer elabora un processo di astrazione profonda e crea una collezione composta da pavimenti, rivestimenti e partizioni murarie contemporanee ed evocative.

Taking her cue from these inventions with their recurring graphic signs and a variegated, impressive range of colors, the designer has developed a process of penetrating abstraction, creating a collection composed of contemporary, evocative floors, facings and partitions.
